

## Summer 2018 Timetable changes

Connections between Steam Packet & trains at Liverpool and Heysham, and connections at Liverpool South Parkway for Liverpool Airport

**Liverpool:** The summer timetable includes major changes to services, including those to/from Liverpool South Parkway. Also during June and July Liverpool Lime Street mainline station is affected by closures, with significant changes to services.

**Heysham:** The train service between Heysham Port and Lancaster has been suspended as part of Northern Trains' temporary emergency timetable, and replaced by a bus service, calling at intermediate stations. Details, for approximately one week ahead, are available on:

[www.northernrailway.co.uk/travel/timetables](http://www.northernrailway.co.uk/travel/timetables) (Route 07).

This shows the bus schedule arrival time of 1357 at Lancaster station, which adversely affects connections. The website appears to indicate that this substitute bus service may be affected by industrial action.

In addition, Stagecoach Cumbria operate bus services between Heysham Combermere Road and Lancaster city centre.

**Please check connections & be prepared to allow extra time**
